YoozPay

You've Built the Foundation With Yooz — **YoozPay Brings It All Together**

You've done the heavy lifting by building an automated approval process in Yooz. With **YoozPay**, completing your end-to-end AP automation becomes the easiest part — consolidating approvals, payments, and reconciliation into one clear, controlled flow.

YoozPay makes every payment drive measurable results.

- Gain real-time visibility across the entire payment process
- Cash back via virtual cards
- Built-in fraud protection and compliance
- Reduce manual work and repetitive tasks
- Strengthen relationships with easy onboarding and flexible payments

Smarter payments, stronger operations.

YoozPay
Get Cash Back with Digital Invoice Payment Workflow

Approve Payment

Select invoice(s) to pay.

Choose a payment method.

Choose amount to pay or apply.

→

Process Payment

Pay approved invoices individually or as a batch.

Manual or automated schedule.

→

Vendor

Receives payment (Virtual Card, ACH, Check)

↓

Confirm Payment

Update invoice payment status and details.

→

Update ERP

Automate export to more than 250 financial systems..

Why More Yooz Customers Are Turning to YoozPay

> "Going from a manual-intensive effort of too many people involved and a high percentage of error, now it's just so easy to pay our bills timely with YoozPay."
>
> - Kim Paulsen, Assistant Controller at Naturion

Unlock Faster, Safer Payments With YoozPay's HandsOn Vendor Outreach

With YoozPay, your vendors are enrolled through a **dedicated, personal outreach process** led by our Payment Specialists.

After a vendor receives their first payment through Yooz, our team contacts them directly by phone to set up the best available payment method—starting with virtual card, then ACH (with full bank verification steps), and finally check if needed.

Once enrolled, that method becomes their default for all future payments, giving you **faster, safer, and more efficient payouts without extra effort** on your end. And if there are vendors you prefer to handle outside of Yooz, you can easily exclude them from the batch.

Save time. Save money.
Smarter, safer payments start here.
