'We were looking for a high-performance tool, capable of scaling and managing the group's growing accounting flows, enabling us to automate manual data entry, make internal accounting more reliable, and reduce closing times: the solution immediately showed its value by embracing our digital culture in the most natural way possible and by sharing the same understanding of the stakes involved as we experience extraordinary growth.'

Anaïs Renaudeau, Senior Accountant Manager

'The Yooz solution has gone down very well with employees, who can now focus on tasks with higher added value. Its user-friendly interface, extremely high functional coverage, the tool's simplicity and the speed with which it can be implemented have been key factors in the success of this change.'
