yooz
Cloud P2P Automation. Easy. Powerful. Smart.

Automate your P2P process in real-time.
Approve in hours. Reduce costs by 80%.

Find the Missing Piece to Your AP Workflow

A checklist to help you find the right end-to-end platform and final piece to your Accounts Payable (AP) automation puzzle.

End-to-End Automation
End-to-end automation means having as little human intervention as possible throughout the process.

Unmatched Flexibility
An approval workflow with the flexibility to trigger automatic full or partial payment after approval in addition to recurring payments per individual invoice or per batch of invoices.

Simple Vendor Onboarding
A single email address should suffice to send payments to vendors, making it a rapid, easy-to-use experience that delights users.

Variety of Payment Options
Demand choices among the payment types used to provide more flexibility and boost acceptance among your vendors and suppliers.

ERP or Financial System Updates
An ideal solution will have seamless integration with your ERP to update payment status in real-time.

Ability to Earn Cash-Back
Generating revenue for every invoice paid with a virtual card will turn a typical cost center like the AP department into a profit center.

Traceability and Working Capital Management
Gain visibility into payments and working capital to take advantage of payment discounts.

Real-Time Data and Analytical Reporting
Powerful reporting capability allows you to make strategic decisions for your business based on real-time data.

Top-Notch Security and Compliance
Look for an ironclad cloud-based platform that includes document fraud, and risk prevention and automatically meets the required standards for government and tax compliance.

All-in-One Platform
The ideal AP platform gives you one single source of truth for the entire process from purchase to payment.

Continued Development and Support
Find a future-proof platform that's constantly evolving because payment options will continue to evolve.

About Yooz
Yooz provides the smartest, most powerful and easiest-to-use cloud-based Purchase-to-Pay (P2P) automation solution. It delivers unmatched savings, speed and security with affordable zero-risk subscriptions to more than 4,000 customers and 200,000 users worldwide. Yooz's unique solution leverages Artificial Intelligence to deliver an amazing level of automation.
