YOOZ
Cloud P2P Automation. Easy. Powerful. Smart.

Pain-Free AP for Companies with Multiple Locations

Accounts Payable (AP) departments of companies that have multiple locations, or work internationally, have **a unique set of pain points** to contend with. To solve for these specific pains, you need the smart, powerful and easy to use AP automation solution that is made to meet the specific needs of multi-site companies.

Pain Points of AP for Multi-Location Companies

High invoice processing costs and difficulty processing documents fast enough to avoid penalties.

Invoices coming from multiple locations in various formats can lead to duplicate payments, lost documents, higher risk of fraud, etc.

Difficulty having an instant overview of your cash flow and being able to make accurate financial projections.

No visibility into complicated, static, and lengthy approval processes on the go.

Difficulty processing and making payments in multiple currencies for international operations.

The Solution for Pain-Free AP is Automation

Cut cycle time to hours and **reduce costs by 80%**.

Gather invoices and documentation in **one easily accessible location**.

Gain instant visibility into your AP process and metrics in real time to help facilitate purchasing decision-making.

Smart, dynamic workflows to approve or reject purchases, invoices and payments anytime anywhere.

Handle multiple currencies and payment processes automatically.

The Solution to Pain-Free Accounts Payable

Yooz provides the smartest, most powerful and easiest-to-use cloud-based Purchase-to-Pay (P2P) automation solution.

Yooz's unique solution leverages Artificial Intelligence to deliver an amazing level of automation that is perfect for companies and organizations with multiple locations.
